MAIL  
The Federal Trade Commission is taking a tougher stand on mailers who try to collect for or recover merchandise sent to persons who did not request it.

Reacting to growing consumer annoyance with the practice, the FTC has issued a ruling which can set a pattern for future cases. According to the FTC, bills, invoices, reminders, letters or notices of a philatelic company must state "clearly and conspicuously" that the merchandise is even to

preserve it, and the recipient is required to pay for the merchandise only if he decides to use it.

GRASS  
In the past, horticulturists recommended leaving grass clippings on the lawn to add additional humus to the soil, but heavy grass clippings tend to smother lawns by heating. They also contribute to the problem of thatching which gradually builds up through the season.

Extension Horticulturist Ronald Shumack suggests using a grass catcher or lawn sweeper to remove clippings after each mowing. Then put those clippings on the compost pile to rot and produce humus for your lawn and garden.

SHADES  
A new glass fiber window shade which can keep a room as much as 50 per cent cooler in summer and warmer in winter is making its debut on the market.

The cloth is tightly woven and vinyl-coated with a texture similar to duck fabric. It has an interlining of Milium which serves as the insulator, and the new shade is sanitized to cut down growth of bacteria, mold and mildew. Available in white or tan, it also provides semipaque

light control.

PATTERNS  
The fashion pattern industry has set up a new scale of standard measurements to make pattern sizes more closely correspond to the sizes of ready-made garments. For example, if you wear a size 12 dress, it is hoped your pattern size will also be size 12. Of course, to correspond, the dress must be made by the exact seam allowance stated on the pattern.

New pattern measurement charts appear in all pattern catalogues or may be obtained from your

county Extension office. Why not get a copy, check on the chart sizes that fit each family member, and take the chart shopping with you?

FABRIC  
What seamstress doesn't enjoy visiting a mill-end store and finding low priced remnant of cloth not usually seen on the regular market? She still needs to know the fiber content of the fabric she buys.

Most likely, short remnants are not labeled as to fiber content or instructions for care. In such cases the decision to buy will rest on previous experience with similar fabrics, information the store personnel can give and report from others who have used some of the same material.

Elba Council Holds  
Special Meeting

The Elba City Council held a special meeting Monday night due to the heavy load of business the new council has encountered.

The first order of business was a lengthy discussion of the garbage fee currently charged by the city. According to the City Code adopted in May, 1968 and effective July, 1968, "From those premises from which garbage is collected and removed less than daily (except Sunday) one dollar fifty cents (\$1.50) per month." It also lists \$3.00 for business. The ordinance reference date is 12-1-68 and checking with that reveals that an error was made in reprinting the city code book as it read \$1 for less than daily and \$1.50 for daily collection.

The discussion by the council was whether to enforce the ordinance or change it. The council voted 4-1 to enforce it as printed and effective November 1st all light and water bills will reflect the \$1.50 for residents and \$3.00 for businesses.

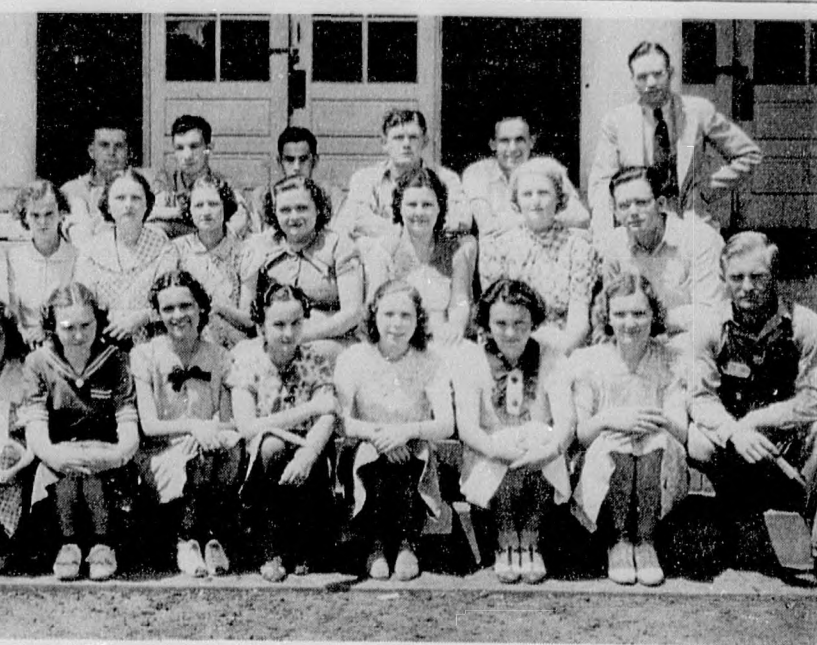

The council voted to solicit bids on a new police Code adopted in May, 1968 and effective July, 1968, "From those premises from which garbage is collected and removed less than daily (except Sunday) one dollar fifty cents (\$1.50) per month." It also lists \$3.00 for business. ## County Car Tag Sales Lagging

County officials are showing increasing concern over the lack of interest in purchasing 1968 motor vehicle tags.

Tax Assessor Fred Donaldson predicts that the waiting lines will be longer the last few days than those in the pictures published in the Clipper the last several years. There were more than 2,000 additional motor vehicles registered last year than the year before and the total goes up each year.

Donaldson reports that a third of the tag buying time has elapsed and less than one-fifth of the cars and trucks have been assigned any time of the day. NOW!

## FOOTBALL

CONTINUED FROM FRONT

the ball well against the Wildcats with a total of 251 yards gained against the 199 for Enterprise. The Wildcats made the most first downs with 13 against Elba's 7 but Elba had the big plays - a long run by Sharpless, passes to Johnny Martin and Dennis Smith. The play that dampened the spirits of Enterprise was a third quarter pass interception by Joel Martin. This interception stopped the Enterprise passing until late in the fourth quarter when they began trying the "bomb" in an effort to get on the scoreboard.

Scoring for Elba were Donnie Holley on a short run, Johnny Martin, pass from Sharpless - 36 yards; and again from Sharpless to Martin from the seven yard line. Johnny Martin also kicked two extra points. The Elba Tigers were playing perfect ball all night as they did not fumble a single time and were only penalized 15 yards - on a pass interference call late in the fourth quarter. The four game officials (from Montgomery) stated at the half "There are two fine ball clubs on this field tonight, and both are all keyed up to win. It could go either way. Boy, they were sure hitting hard."

## Jus' Ramblin'

BY LUCILE K. WOODHAM MCKRAE

### \*\*\*\*\*

I DON'T SEE HOW the presidential candidates can take the pressure. It is bad enough without the heckling that goes on at all stops but when insults and all kinds of booging is added that is more than a human can stand. Such actions are not directed at just one of the candidates but to all of them.

I guess Hubert Humphrey and George Wallace are coming in for a bigger share of the insults but Nixon is getting a good bit of it also. I don't know what satisfaction anyone gets out of insulting politicians but apparently they enjoy it. I think that some are doing it when they do not actually care who is elected. They enjoy acting the fool and take advantage of politicians as a target.

At one time there was a lot of talk that the Wallace supporters were hiring hecklers to act up real bad at his rallies but I can't see that it would help any though there for awhile Wallace would tell them that they were getting him a million votes every time they booed him. But that can't be true for if it gets him that many votes every time there would be none left for Nixon and Humphrey, and anyway, the other two candidates are getting the same treatment and it would mean a million votes for them each time, also. There just ain't that many votes floating around.

But regardless of who the candidate is they deserve respect from the people. It is

downright ugly for anyone to insult to those who are offering to be a servant to the people. If they don't want some particular candidate elected why not go to the polls and vote against them and for a favorite if they have one.

I doubt if many of these people who are doing the booing and casting insults can even vote.

THE NAME Wallace, Nixon and Humphrey are familiar names but Agnew, LeMay and Muskie sound sorta foreign, don't they?

WE DO NOT SEE many stickers for president on cars and in this part of the nation the only ones we do see are "Wallace" but they are few and far between. People seem to clutter their cars too much to have stickers with names.

I notice that those cars that do have stickers must have Wallace for President on one side and Dickinson for Congress on the other. Look as if it might be Wallace and Dickinson in this part of Alabama.

I MADE AN error in Dr. McCrae's name last week. Instead of it being R. J. it should have been Dr. V. D. McCrae. I'm sorry. I don't guess those buckeye balls are doing me much good. I'm supposed to be having good luck toting those buckeyes around with me.

Dr. V. D. McCrae of Elba gave Ferrin Cox, editor of The Elba Clipper, a couple of buckeye balls so last week when he started to the Elba-Enterprise in the house to get his billfold he had forgotten, his little daughter, March, reminded him to get his buckeye balls.

She was real upset because he couldn't find them. I think she thought that her dad would end up in big trouble without them.

Anyhow, Ferrin had to ask Dr. McCrae for some more buckeye balls so that his little girl would have confidence that he would not fall into "trap bad trouble."

WE HAVE HAD AN unusual week. We had a eleven and one-half pound bass brought in and we have a box of duck eggs that are a beautiful green, looking just like rusty-made.

## Creels Announce The Birth Of A Son

Mr. and Mrs. Lawrence H. Creel announce the birth of a son, Jeffery Lawrence, on September 16th in the Elba General Hospital.

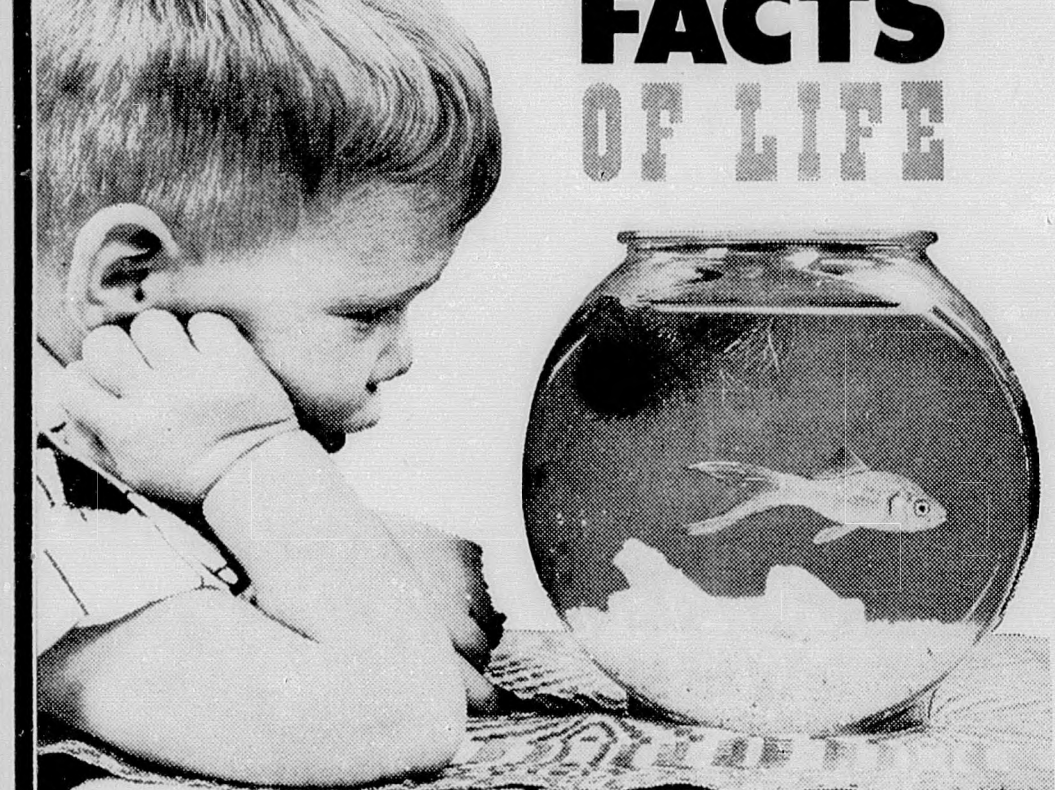

Grandparents are Mr. and Mrs. Hulton A. Noll of New Brockton and Mrs. Ida Mae Creel and the late Aaron L. Creel of Graceville.

## Brunson's Are Proud Parents Of Baby Girl

Mr. and Mrs. Jerry Brunson of Enterprise announce the birth of a son, Jerry Burton Brunson, Jr., born October 14 at an Enterprise hospital.

At birth he weighed six pounds and fourteen ounces.

Both mother and baby are doing fine.

Jimmy was so fascinated by his new goldfish that he thought he'd forgotten about the other. Then, suddenly, he looked up and asked, "Mommy, will this one die too?"

I tried, as gently as I could, to tell him that, in time, all things die. And as I did so, I realized how valuable it is for a child to have even as small a pet as a goldfish. For in observing a pet—even in suffering the loss of one—a child begins to learn a great deal about life, in a natural and understandable way.

But I warned myself, it is important to realize that he is learning only the *visual* material part of the lesson. In order to understand what he is seeing, and what he is feeling, he must be taught its spiritual meaning. This is why religious education is so important. That is why Jimmy attends church with us. . . and he'll start church school, next fall.

## Life Insurance Available To Disabled Vets

RH National Service Life Insurance is available only to veterans separated from service after April 24, 1951, who have been rated by the VA as having a service-connected disability.

After the rating is established, VA insurance officers in Philadelphia or St. Paul inform each veteran that he is entitled to apply for low cost RH insurance. Applications must be submitted within one year from the date the disability is established.

The VA emphasized that veterans who receive disability ratings may apply for RH insurance whether or not they converted their Servicemen's Group Life Insurance (SGLI) to a private policy after they got out of military service.

Even if the veteran converted his SGLI policy, the VA encourages him to apply for the RH insurance, as it can afford to do so — U. S. Army at Fort Gordon, Georgia, he has been preparing for the military at Baptist Bible Institute in Elba, October 6.
